The Oasis Project addresses the lack of access to clean running water on the Navajo Nation by installing off-grid water systems for families who have lived without water infrastructure for generations. The project provides solar-powered water pumps, storage tanks, and filtration systems, ensuring sustainable and long-term solutions. In addition to direct installations, the program integrates workforce development by training and employing high school students to build and install water systems in their own communities. This approach not only expands access to clean water but also empowers youth with technical skills, job training, and a sense of ownership in solving local challenges. Since its launch, the Oasis Project has installed over 170 off-grid water systems.

The Cortez Makerspace is an initiative designed to provide technical training, workforce development, and business support for entrepreneurs, students, and community members. While the full makerspace is awaiting funding and a permanent location, Fundamental Needs has actively worked to develop partnerships, programming, and workforce development opportunities in preparation for its future launch. In 2024, Fundamental Needs hosted the "Start. Scale. Pitch!" three-part entrepreneurship workshop series, which introduced core business and financial skills critical to future makerspace programming. The series included: Unique Value Proposition (April 2, 2024): Helping participants identify community needs and develop business ideas with a sustainable advantage. Finance and Profitability (April 9, 2024): Covering financial literacy, smart investments, and negotiation strategies. Creating a Pitch Deck (April 16, 2024): Teaching participants how to build a compelling pitch deck and polish their presentation skills. Beyond these workshops, Fundamental Needs has been developing workforce training programs for the makerspace, which will include: Technical training in 3D printing, CNC machining, and laser cutting. Workshops on product development, branding, and small business operations. Collaborations with Fort Lewis College, Pueblo Community College, and local businesses to offer certifications and hands-on learning opportunities. At Fundamental Needs, we partner with underserved communities in the United States to address critical gaps in access to clean drinking water, electricity, education, and vocational opportunities. By combining community-led approaches with practical solutions, we empower individuals and families to overcome systemic barriers and create lasting change. Our key initiatives include: The Oasis Project: Installed 170 off-grid water systems in the Navajo Nation, providing sustainable clean water while training local high school students in vocational skills. Entrepreneurship Program: A business education program at SWOS, teaching market research, financial literacy, and business planning, with a final pitch competition and mentorship from Fort Lewis College and CU Boulder. Cortez Makerspace (In Development): Piloted workforce training in 3D printing, CNC machining, and business development while securing partnerships for future certifications and technical training.

Part and Line Number: **Part III Line 2**

In 2024, Fundamental Needs piloted its Social Entrepreneurship Program, providing students with hands-on experience in business fundamentals, problem-solving, and real-world applications. A key outcome was the student-led conceptualization of the Cortez Makerspace, a project designed to provide technical training, workforce development, and business support for the community. While full implementation of the makerspace is pending funding, Fundamental Needs has established partnerships with Fort Lewis College, Pueblo Community College, and local businesses to lay the groundwork for future workforce development programs. In the interim, limited technical training and entrepreneurship workshops have been introduced, ensuring progress toward the long-term vision.

Part and Line Number: **Part VI, Section A, Line 8(b)**

Fundamental Needs documents the activities of its governing body through written meeting minutes and records of decisions made throughout the year. Board meetings are held regularly, and key actions, including financial oversight and organizational decisions, are recorded and maintained for organizational records.

Part and Line Number: **Part VI, Section B, Line 11(b)**

The Executive Director and board chairwoman review the draft Form 990 for accuracy and completeness. The draft is then circulated to all voting board members for review before submission. Feedback is collected, and any necessary corrections are made prior to filing.

Part and Line Number: **Part VI, Section B, Line 12(c)**

The organization maintains a written Conflict of Interest Policy requiring all officers, directors, employees, and contractors to disclose actual or potential conflicts. Disclosures are reviewed by the board and documented in a Conflict Register. Appropriate measures—such as recusal from decisions, reassignment of duties, or approval with safeguards—are implemented based on severity and risk. The policy is reviewed periodically to ensure alignment with best practices.

Part and Line Number: **Part VI, Section C, Line 19**

The organization makes its Form 990 and relevant governance documents available to the public via its public profile on GuideStar (<https://www.guidestar.org/profile/85-3603760>) and provides additional documentation upon request.
